

## OB22 OBD GPS TRACKER INSTALLATION GUIDE

Simply locate the OBD Diagnostic port on your vehicle and plug the device into the port. The OBD port is normally found under the drivers or passenger side dashboard.

You can also use this website to check the location.

Our supplied devices are already configured to work with our platforms, however, if using your own supplied SIM cards you will need to set the APN Name using the following SMS command.

APN,**xxxxxx**# where **xxxxxx** is your APN name
